

Personal Protective Equipment

This PPE checklist can be used by floor managers and safety managers to identify hazards in the manufacturing workplace and select the appropriate equipment to protect workers from injury. PPE should not be the primary means of risk control however this inspection will ensure PPE is used correctly and in an OSHA compliant manner.

By:

Date:

Time:

1. Has a hazard analysis been performed and required PPE designated from that activity?	Yes	No	N/A	Comments
2. Is the PPE Hazard Analysis updated and changed when new machinery, processes or other hazards are introduced to the facility?	Yes	No	N/A	Comments
3. Does eye protection PPE in use at the facility meet ANSI Z87.1 standard (U.S. Standard for Occupational and Educational Eye and Face Protection)?	Yes	No	N/A	Comments
4. Have noise levels been monitored to determine the need for a hearing conservation program?	Yes	No	N/A	Comments
